

Sanitizing Footbath Mat No. 222

New Version!

Performance: BEST

Our Sanitizing Foot Mat keeps hygienic areas free of contamination and germs. Great for food processing plants, this mat has thousands of pliable rubber scrapers that dislodge contaminants from footwear as the shoe soles are immersed in the disinfectant solution. Sanitizing Foot Mat will hold one gallon of disinfectant solution - chlorine or quaternary.

The **New** model has **2 1/2" Tall Walls**, which allow the mat to hold up to **5.5 gallons of sanitizing solution**. When filled to a practical level, the solution will totally immerse the treads and sides of the boot sole, while the fingertips release any accumulations. The **larger overall size covers most doorways** and allows employees to take two steps in the mat.
