

NEW! PermaTack No. 092

ULTIMATE Performance

A high performance, industrial strength contamination control mat, PermaTack is ideal for inside and outside critical areas, such as clean rooms in the following industries:

- Industrial
- Medical
- Pharmaceutical
- Aerospace
- Semi-conductor
- Food production

The permanently tacky surface is designed to remove even the finest particles off shoes or wheels. In fact 98% to 100% of all such contamination will be removed if each foot touches the mat 3 times—generally this requires a minimum length of 20'.

PermaTack is also a great dirt control solution in heavy use, less critical areas such as offices, labs, inspection rooms or any area where the tracking of dirt and small debris can be a maintenance nightmare.

KEY FEATURES:

- When cleaned, the surface will regenerate its tack. To clean, just mop with water or a low Ph cleaner such as Simple Green®. Squeegee the extra moisture off the mat and allow the mat to dry.
- PermaTack's super polymer surface is bonded to a durable base that provides stability and long-lasting performance.
- PermaTack has an adhesive backing that prevents mat movement and eliminates the need for a supplemental tray.
- Surface is static dissipative - RTT = 1×10^8 to 1×10^{10} ohms.
- The mat has a low profile to accommodate any doorway.
- PermaTack is a "green" product and can be used to replace multiple layer tacky mats. With no sheets to throw away, there is much less waste.

Color: Blue (BL)

PermaTack Sizes

Stock Sizes	Non-Stock Sizes
Ship in 1 Business Day	Ship in 2 Business Days
24" x 48"	30" x 10'
30" x 72"	54" x 10'
	30" x 20"
	54" x 20"
	24", 30" and 54" wide material is available in cut lengths > 5' long. Please call for a quote.

PermaTack IS the Best Long-Term Value!

Perma Tack has a considerable cost advantage over disposable, multiple layer mats*

Product	Cost per Day
Peel off tacky mat	\$1.83 (one sheet per day)*
PermaTack	\$1.40 (in service for 1 year)
PermaTack	\$0.70 (in service for 2 years)

*Based on a 24" x 45" disposable mat vs. a 24" x 48" PermaTack. Life expectancy of PermaTack is two (2) years under normal wear conditions with a payback in 9 months.

PermaTack Facts

Low profile to accommodate any doorway

Surface is static dissipative RTT = 1×10^8 to 1×10^{10} ohms
